The California Regional Water Quality Control Board, North Coast Region (Regional Water Board) Executive Officer will consider approval of a proposed Settlement Agreement and Stipulation for Entry of Administrative Civil Liability Order, No. R1-2021-0043 (proposed Order). The Prosecution Team of the North Coast Regional Water Board and Redway Community Services District (Discharger) have agreed upon a proposed settlement to resolve violations subject to mandatory minimum penalties (MMPs) alleged in Administrative Civil Liability Order No. R1-2021-0043, that occurred over the period from March 18, 2014 to November 30, 2018. The Order proposes that the Regional Water Board assess mandatory minimum penalties in the amount of \$30,000 for violations of effluent limits.

The Discharger has proposed to use the suspended liability amount of \$30,000 to implement a Compliance Project consisting of three separate improvements to wastewater collection, prioritization, and rehabilitation. Specifically, the project will consist of 1) purchase and installation of a sewer camera crawler; 2) review of lift station pumping data to identify and prioritize collection system zones receiving the highest infiltration and inflow of stormwater; and 3) conduct dye tracer studies to identify specific collection system features/elements associated with stormwater infiltration/inflow.
